

Importing a Referral Template into Zedmed

1. Download and save the referral template to an accessible location, such as your Desktop.
2. In Zedmed Clinical, go to Tools > Clinical WP Setup > WP Templates.
3. Select File > Import Template.
4. Select Browse, locate and select the file, click Open.
5. Enter a name for the template next to Description, click OK. The template is ready for use.
6. To add to Quick Docs: locate the template under User Defined templates, right-click and select Toggle as Quick Documents button menu item.
